Forging fashion links with India

FASHION designers and retailers will forge valuable links with Indian and Hong Kong counterparts on a series of overseas buying missions headed by Belmont based Textile Clothing Fashion WA.

TCFWA founder Carol Hanlon is seeking expressions of interest from WA small businesses to attend the 44th India International Garment Fair in New Delhi in January, with sponsored airfares and accommodation.

"India International Garment

Fair is a very professional trade exhibition with over 350 stands," she said.

"This great opportunity is for existing designers sourcing new products or looking for manufacturers. It will also suit importers and retailers of men's and women's wear, accessories or jewellery."

A specialist in Indian manufacturing and design, Sarita Rodricks, is available for mentoring and consultancy through TCFWA.
